

# Monitor Storage Devices in Deep Archive Environments...

- Query storage device usage and errors
- Record daily storage device status in a database
- Display storage device status on webpage and allow users to specify filters for different views
- Send email to alert administrator when errors and thresholds detected

# Display storage device status and allow users to specify different views

Start:    End:

Total drives:126 Filters:No Last updated:2016-08-22
