

Panel discussion - questions

- What are the key challenges?
 - Availability of observational data?
 - Policy recommendations?
 - Computational resources?
- Computational requirements – how do we describe them?
 - Single run? Tightly vs. loosely coupled
 - Ensemble runs?
- Basic Environmental Toolbox components?
 - WRF?
 - CFD (OPENFOAM)?
 - Blast?
 - COMCOT?
 - Machine translation(!) to detect alien invasion via Twitter(!)?
- DMCC
 - Lessons learned from the collaboration?
 - General approach: research/post-event analysis to predictive/operational services?

- Social media between events?
 - <https://www.facebook.com/envcomp>
 - <https://twitter.com/envcomp>
 - Suggestion: start using for shameless self-promotion, grow the community?
- Next workshops
 - ICCS 2017
 - eScience 2017
