

Trust-Building and Negotiation Practicum

Tuesday, 21 March 2023 16:40 (20 minutes)

Before the Pandemic, university students and corporate staff of the HR departments from IBM, ANA, and Fuji Xerox, among others, gathered in Tokyo once a year to have a communication and negotiation workshop to enhance their negotiation skills. The purpose is to develop and enrich their human resource skills through the interaction of multi-tiered age groups. During the Pandemic, such activities were interrupted. As we approach the end of the Pandemic, organizers have started an innovative workshop to maintain the quality on a larger scale than before.

Presenters: Prof. TAGAMI , Masanori; YAMAMOTO, Tosh (Kansai University)

Session Classification: Education Informatics Workshop
