

International Symposium on Grids & Clouds (ISGC) 2011

Friday, 25 March 2011

Earth Sciences Applications, Environmental Monitoring & Disaster Mitigation: (09:00 - 10:30)

time	[id] title	presenter
09:00	[158] Modeling Scenarios of Earthquake-generated Tsunamis for the Vietnam Coasts	PERESAN, Antonella
09:18	[159] Earthquake – Tsunami Hazard Assessment and Risk Mitigation in Vietnam Using GIS	NGUYEN, Hong-Quang
09:36	[160] Development of Earthquake Early Warning System Using Low Cost Seismometer	WU, Yih-Min
09:54	[161] The Potential Tsunami Threats from the South China Sea and Hazard Mitigation	WU, Tso-Ren
10:12	[162] Earthquakes Seismic Networking and It's Application in BMKG, Indonesia	HENDRAWANTO, Benny

Earth Sciences Applications, Environmental Monitoring & Disaster Mitigation: (11:00 - 12:30)

-Conveners: Bor-Shouh Huang

time	[id] title	presenter
11:00	[172] Thailand Wind Map Forecasting	CHITRADON, Royol
11:15	[173] The CWB Network Information exChange Environment (NICE)	CHENG, Mark
11:30	[174] e-Science on Weather Simulation Using WRF Model	SUN, Yun-Pin
11:45	[175] A Lesson Learned of Cloud Computing in Fleet Management System in Taiwan	LIN, Wei-Yen
12:00	[176] The Cloud-Based Sensor Data Warehouse	KU, Wen-Yuan
12:15	[177] Applying Case-Based Reasoning to Spatial-temporal Analysis of Residential Burglary Crime Investigation	WANG, Ryan Shen-Ming
