

# 1. Goal Setting: Opening Remarks

*Monday, 17 March 2025 14:00 (10 minutes)*

Tosh explores the need for a paradigm shift in education to address the evolving demands of the post-pandemic era. By critically examining current challenges and issues in education, he introduces innovative curriculum designs aimed at fostering future-ready learners. Key topics discussed include:

(i) What skills are needed for success in the future?

(ii) What to learn? The importance of tacit knowledge: Future skills go beyond acquiring explicit knowledge; tacit knowledge plays a crucial role in human resource development.

(iii) Creating a learning ambiance for active and authentic learning: How can we implement these skills effectively in real-world, meaningful learning environments?

These insights provide a foundation for reimagining education better to prepare learners for the complexities of the future.

**Presenter:** Dr YAMAMOTO, Tosh (Kansai University)

**Session Classification:** Redefining Education for Future Skills in the Post-Pandemic VUCA Era: -The Ascension of Authentic Learning Enhanced by Illuminative AI-
