International Symposium on Grids & Clouds (ISGC) 2010

Friday 05 March 2010 - Friday 12 March 2010

BHSS, Academia Sinica

Book of Abstracts

Contents

Introduction to the EUAsiaGrid and the Tutorial for Trainers . . . 1
gLite 3.1 and Its Services . . . 1
Security . . . 1
Information System . . . 1
Job Management . . . 1
Data Management . . . 1
AMGA Metadata . . . 1
Preparation of Local Training Infrastructure . . . 1
Setting up a Repository . . . 2
UI and UI PnP . . . 2
CE+WNs Installation I . . . 2
CE+WNs Installation II . . . 2
Other Server Installation Overview: SE, AMGA, BDII, MyProxy, WMS, LFC, etc, . . . 2
The GILDA t-Infrastructure . . . 2
Parallel Application with gLite . . . 2
Application Porting and Integration: the gLite API . . . 2
Application Integration with GAP and other Higher Level Framework . . . 3
The GENIUS Grid Portal . . . 3
Teaching Demo . . . 3
Grid Training after EUAsiaGrid and EGEE-III Project . . . 3
Welcome What's Social Simulation? What's Agent-based Modelling ?(ABM) . . . 3
The RePast Simphony Toolkit, an Example Model . . . 3
Practical I - Installing RePast and Running Model . . . 3

Population Reconstruction . . . 4
Infrastructures for Social Simulation . . . 4
Introduction to Grids and Cloud Computing . . . 4
Practical II - Running Model Ensembles on Grids and Clouds . . . 4
Closing Remarks . . . 4
Update on Security Policy . . . 4
Manage Security and Handle Security Incident . . . 4
How Were You Hacked and What Should You Do . . . 5
Middleware Security . . . 5
Introduction to SAML-based Federations . . . 5
Security Service Challenge and Security Monitoring . . . 5
Discussion & Wrap-up . . . 5
Opening Remarks . . . 5
Earthquake Sensor Network Bor-Shouh HUANG, Institute of Earth Sciences, Academia Sinica, TW . . . 5
Grid-base Earthquake Data Centre Gen-Sin CHANG, Central Weather Bureau, TW . . . 5
Seismic Wave Propagation Simulation . . . 6
Panel Discussion . . . 6
Progress Update - EUAsiaGrid Applications on Climate Change . . . 6
Risk Management and Climate Change: El Niño Case in 2010 (Regional Perspective) . . . 6
Climate Change . . . 6
Panel Discussion I . . . 6
Panel Discussion II . . . 6
Introduction to iRODS Technology (discussion of basic capabilities) . . . 7
Open Discussion with Workshop Participants on Their Data Management Needs . . . 7
Installation of iRODS Clients on Participant Systems (Windows, Mac, Linux) . . . 7
Initial Demonstration of iRODS Client Access . . . 7
Introduction to iRODS Rules and Micro-services . . . 7
Demonstration of Federation of Data Grids . . . 7
earch Collaboration Service (ARCS) and Demonstration of WebDav Interface to iRODS . 7

Data Management at KEK Using iRODS 7

ASGC Presentation for Multilingual Support and Application Development Status 8

Open Discussion of iRODS Applications in Digital Libraries, Data Grids, and Preservation Environments 8

WLCG - Status and Outlook 8

European Grid Infrastructure: Enabling the Global Research Community 8

NAREGI Grid Middleware and Beyond - Toward Cyber Science Infrastructure 8

e-Science Uptakes of Taiwan 8

Grid Related Activities around KEK 8

Update on National Knowledge Network in India 8

Risk Management and Climate Change: El Niño Case in 2010 9

EU-IndiaGrid2 Sustainable e-Infrastructures Across Europe and India 9

Investigation and Analysis of Identity Management Issues by OSG and Esnet 9

Model Checking Grid Policies 9

Grid Operational Security 9

Managing and Preventing Security Incidents in a Production Grid Infrastructure 9

e-infrastructure for FAIR 9

A Study of Particle Physics Based on e-Science Paradigm 10

Belle II Distributed Computing 10

Distributed Key Management System for Sensitive Data 10

On Certificate Issuance and User ID Management in the NAREGI Grid Middleware Integrating the Shibboleth 10

TERENA eScience PKI 10

LHC ATLAS Analysis Activity in Japan 10

LHC Data Taking and the Grid – An Infrastructure Perspective 10

Grid Computing Operations for the CMS Experiment at the GRIF Tier-2 Site 11

CMS Computing Experience from the LCG STEP'09 Challenge to the First Data Taking of the LHC Era 11

First Experiences with CMS Data Storage on the GEMMS System at INFN-CNAF Tier-1 . 11

Distributed Key Management System for Sensitive Data 11

On Certificate Issuance and User ID Management in the NAREGI Grid Middleware Integrating the Shibboleth . . . 11

TERENA eScience PKI . . . 11

LHC ATLAS Analysis Activity in Japan . . . 11

LHC Data Taking and the Grid – An Infrastructure Perspective . . . 12

Grid Computing Operations for the CMS Experiment at the GRIF Tier-2 Site . . . 12

CMS Computing Experience from the LCG STEP'09 Challenge to the First Data Taking of the LHC Era . . . 12

First Experiences with CMS Data Storage on the GEMMS System at INFN-CNAF Tier-1 . . . 12

Grid Infrastructure in Latin America - The EELA-2 Story and Legacy . . . 12

e-Social Science: Achievements and Future Prospects . . . 12

A Contribution to e-Wissenschaft . . . 13

RENKEI: Middleware Enabling Resource Federation for e-Science . . . 13

Australian Research Collaboration Service (ARCS) and Grid Activities in Australia . . . 13

Pathway to the Development of Sustainable National Health Information System . . . 13

KnowledgeGRID Malaysia Activities . . . 13

Grid and Cloud Computing for Bioinformatics Education and Research . . . 13

Grid Activity in Korea for the Discovery of Potential Inhibitors Against Diseases on WISDOM Environment . . . 13

Grid Enabled Medical Informatics in Vietnam . . . 14

SEE-GRID Infrastructure for Regional eScience . . . 14

A Grid Operations & Management ROC Approach Transition from EGEE to EGI/NGI . . . 14

Peer-to-peer Cooperative Scheduling Architecture for National Grid Infrastructure . . . 14

User Support for Distributed Computing Infrastructures in Europe . . . 14

The EUAsiaGrid Roadmap: Paths to a Sustainable, Persistent e-Infrastructure in the Asia-Pacific Region . . . 14

The Quality in Quantity - Enhancing Text-based Research . . . 14

TEXTvre: A Virtual Research Environment for Textual Scholarship . . . 15

Building a European Research Infrastructure for the Arts and Humanities . . . 15

From Digital Archives to Digital Humanities – The NTU Approach . . . 15

GeoParsing: The Digitization and Historical Georeferencing of Text Documents . . . 15

GENESIS Social Simulation Modelling Progress 15

Achievement of TEIN 3 for Live Streaming Collaborative Cultural Performance Between Sweden and Malaysia 15

From EGEE Operations Portal to EGI Operations Portal 15

A Resource Allocation-Centric Grid Operations Model 16

Kolkata Grid Tier-2 Centre: Installation and Administration 16

Performance Analyses of EGEE-like Grids in Asia and Latin America 16

The Challenges, Issues and Problems in Efficient Operation and Management of Grid Computing 16

The Quality in Quantity - Enhancing Text-based Research 16

TEXTvre: A Virtual Research Environment for Textual Scholarship 16

Building a European Research Infrastructure for the Arts and Humanities 16

From Health-e-Child to Sim-e-Child, Experiences from Adopting the Grid to Adapting it to Translational Medicine for Paediatrics 16

The Grid Computing Infrastructure of the LHC 17

Grid Computing for Civil Protection An Application about Flash Floods Forecasting: First Results and Lesson Learnt 17

An Update on the Grid Activities in Australia 17

The Beijing Tier-2 Site: Current Status and Plan 17

Grid Activities of KISTI in Collaboration with EGEE 17

Grid Computing for Research and Educational Activity in Indonesia 17

Grid-based International Network for Flu Observation 17

Grid Activities in Pakistan 18

Lessons Learned from 2004 Tsunami on the Andaman Coast of Thailand 18

Efficient Bulk Data Replication for the Earth System Grid 18

Spatial Visualize Information System for Effective Disaster Management in Sri Lanka . . 18

Interoperating AliEn And ARC for a Distributed Tier1 in the Nordic Countries 18

Towards a Scalable Virtual Organization Privileges Management Environment 18

dCache,Sstorage Interoperability Beyond WLCG 18

Grids and Clouds Interoperation: Development of e-Science Applications Data Manager on Grid Application Platform 18

Elements of a Curation Grid 19

GRID Application Meta-Repository: Repository Interconnectivity and Cross-domain Application Usage in Distributed Computing Environments . . . 19

Digital resources after the Arts and Humanities Data Service: The UK perspective 19

Petascale Earthquake Simulations for Improved Seismic Hazard Analysis 19

Enhancement and Modernization Plan of the Philippine Seismic Network 19

USM Disaster Research Nexus: Development of Tsunami Research and Resilience 19

Numerical Simulation of Seismic Waves and its Application in Taiwan 19

The D4Science Approach Toward Grid Resource Sharing: The Species Occurrence Maps Generation Case . . . 20

Data Access with File Protocol and StoRM 20

Design and Implementation of A Multi-Grid Resource Broker for Grid Computing 20

Quality of Service Guarantee for Storage Systems 20

GOCDB-4, a New Architecture for the European Grid Initiative 20

An APEL Tool Based CPU Usage Accounting Infrastructure for Large Scale Computing Grids . . . 20

Using HLRmon for Advanced Monitoring of Resources Usage by Virtual Organizations . 20

Virtual Organizations Job Submission Activity Though the gLite WMS at INFN-CNAF . . 21

Fostering E-Science Application in Campus Grid Infrastructure Based on gLite Middleware . . . 21

Integration of Cloud and Grid Middleware at D-Grid Resource Centre Ruhr 21

STAR's Cloud/VM Adventures 21

Large Scale Distributed Database Systems Based on Semantic P2P Networks 21

Applicability of Free Energy Calculations Using High-Throughput Grid Approach 21

GVSS: A New Virtual Screening Service against the Epidemic Diseases in Asia 21

Grid Computing for Bioinformatics: An Implementation of a User-Friendly Web Portal for ASTI's In Silico Laboratory . . . 22

Data Repository for Clinical Research 22

Distributed Parametric Optimization Using the Geneva Library 22

Determining Overhead, Variance & Isolation Metrics in Virtualization for IaaS Cloud . . 22

Roadmap for Applying Hadoop Distributed File System in Scientific Grid Computing . . 22

Analyzing the Applicability of Airline Booking Systems for Cloud Computing Offerings 22

Discovery of Novel Human Intestinal Maltase Inhibitors on WISDOM Environment and in Vitro Confirmation 23

Grid-based International Network for Flu Observation 23

Grid Computing Technology and Recurrence Quantification Analysis to Predict Seizure Occurrence in Patients Affected by Drug-resistant Epilepsy 23

Construction of the Application Environment for Phylogenetic Analysis of Land Plants . 23

Roadmap for the Uptake of the e-Infrastructure in the Asia-Pacific Region 23
